

IPSE DIXIT

Age: 8-99

Players: 2-6

Duration: 25 minutes

A game by: *Dave De Vega*

Contents: 48 aphorism cards; 5
chronological sheets; Rules

The pack contains 24 pairs of cards which, on one side, have some famous quotes, and on the other the names and pictures of the corresponding authors.

How to play

Shuffle the cards and spread them out, face down, on the table (for an easier version, the cards can be arranged in a 6 x 8 rectangle). The youngest player goes first, turning over a card with a black back (author) and then a card with beige back (quote). If they manage to match an author with their quote, they win the cards and continue playing; otherwise, they turn the cards back over and play moves on to the next person. The game ends when there are no more cards face down on the table: the person who has won the most author-quote pairs wins.

The chronological sheets, numbered from 1 to 5, contain an index of the authors of the quotes with brief comments on the texts.
